

Total Solutions At Work For You

CONNECTING YOUR PRACTICE TO THE TECHNOLOGY RESOURCES YOU NEED

iTotalSolutions allows your office staff to spend more time with patients and less time with paperwork. Your office will quickly scan and upload all billing related material. Our dedicated team of billing executives will enter all charges, perform claims scrubbing, update demographics, post payments, bill patients, and follow-up on all denials. The vast majority of insurance and governmental payments will be directly deposited in your bank account, and all other payments will be sent directly to your office.

With antiquated billing and practice management software, it is impossible to get a holistic overview of your practice's financial health. Using iTotalSolutions online practice management system, healthcare providers and practice administrators are able to see real-time analysis of the practice's charges, payments and accounts receivable. More than just reports, the online practice management system provides guidance on payer histories, insurance payment to charge ratios, and practice efficiency.

**Online Medical Billing—Denial Management—Healthcare Training—Coding As A Service—Evaluation and Management
Document Management—Electronic Medical Records—Staff Performance Improvement**

OUR PRACTICE MANAGEMENT CONSULTING PROVIDES A TOTAL END-TO-END SOLUTION.

CASH-FLOW SOLUTIONS

According to NaviNet (formerly NaviMedix), nearly half of healthcare providers do not know the amount a patient will owe them at the time of care. The May 2009 survey sampled healthcare providers across the United States and showed that 49 percent of providers said they do not have the ability to calculate patients' financial responsibility, beyond co-payment, until after claims are submitted and processed. iTotalSolutions helps you navigate your practice to cash-flow success. Because each practice is unique, our team works with you to determine what makes your practice different from others and how certain changes will lead to greater success. After we learn all we can about your practice, we'll develop a tailored "treatment plan" to help your practice stand out from all the rest, to grow, and to prosper.

STAFFING SOLUTIONS

iTotalSolutions helps you discover strategies to express your leadership, build your practice, have satisfying relationships, and reach your goals more quickly. Although a number of consultants offer solutions, iTotalSolutions is dedicated to Performance Improvement through: Pattern Recognition, Skill-Based Coaching, and the Residual Effects of this style of coaching.

A/R SOLUTIONS

iTotalSolutions helps private practices with special requirements. Our executive teams provide exceptional administrative and strategic guidance and client service. As an example, for a practice with A/R at an undesirable level, we can resubmit and follow up on previously submitted claims.
